

# Kaan Saçma

## Full Stack Developer

## WORK EXPERIENCE

### Capra Solutions, Brussels, Belgium

Full Stack Developer (Part-Time)

Jul 2024 - Present

- Improved API performance and backend architecture for smoother data processing.
- Developed new frontend components, enhancing UI responsiveness and user experience.
- Created and maintained automated webhooks, simplifying data handling and reducing manual tasks.
- Worked closely with clients to implement and refine features, ensuring project needs were met effectively.
- Identified and fixed backend and frontend bugs, improving application stability and usability.

### Capra Solutions, Brussels, Belgium

Full Stack Developer (Internship)

Feb 2024 - Jul 2024

- Contributed to the development of a cross-platform mobile application for tutoring services.
- Implemented real-time notifications and feedback systems to improve user interaction.
- Built dynamic UI components using Vue.js and Ionic Framework to enhance user experience.
- Developed and maintained backend services using Node.js and MongoDB.
- Optimized API interactions to ensure smooth data retrieval and system efficiency.

### Evo Group, Brussels, Belgium

Front End Developer (Internship)

Aug 2022 - Nov 2022

- Developed a customizable survey web application for collecting and analyzing data.
- Created a responsive web interface for both desktop and mobile, ensuring accessibility.
- Implemented interactive animations using GSAP3 to enhance user experience.
- Designed and optimized frontend components using Vue.js, HTML, CSS, and JavaScript.

## EDUCATION

## SKILLS

### Web Development:

- Ionic
- Vue.js
- React
- Node.js
- MongoDB
- HTML
- CSS
- JavaScript
- GSAP3

### Computer Languages:

- C
- C++
- C#
- Python
- Rust
- Haskell

### Soft-Skills:

- Teamwork
- Autonomy
- Adaptability
- Quick Learner
- Problem-solving

## LANGUAGES

- French - C2
- English - B2

## INTERESTS

- Manga
- Animation
- Travel
- Gaming
